EDUCATION

Georgetown University

Bachelor of Science in Science, Technology & International Affair, Minor in Computer Science

- GPA: 3.9/4.0 | First Honors

Washington, DC

Aug. 2024 – May 2028

PROFESSIONAL EXPERIENCE

GovSkills

Product Manager Intern

Washington, DC

Jan. 2026 – Present

- Analyzed 73 survey responses and conducted 5 user interviews to identify barriers and preferences in government job recruiting.
- Created product specs for a personalized internship feed, role eligibility labels, and application timeline transparency.
- Built 3 campus go-to-market playbooks focused on trusted referral channels to increase GovSkills adoption.

Massive Data Institute

Technology Policy Research Assistant

Washington, DC

Jan. 2026 – Present

- Conducted data privacy risk assessments of K-12 AI tools in a \$20M grant initiative to distribute funding across 143 proposals.
- Designed a 10+ factor risk model enabling release of tutoring data for 6 AI training competitions to improve learning outcomes.

Garde-Robe

Product Manager Intern

Washington, DC

Aug. 2025 – Mar. 2026

- Spearheaded a growth strategy to gate premium features behind friend-invites, increasing app virality K-factor from 0.0 to 0.15.
- Improved onboarding UI/UX with engineers and designers by removing forced contact permissions and adding in-app tutorials.
- Directed campus-ambassador programs across 7 universities to increase signups by 60% across launch campuses.

Toast, Inc.

Product Consultant

Washington, DC

July. 2025 – Dec. 2025

- Identified ordering friction by analyzing 50 survey responses to Figma prototype menu-filtering feature, entering pilot launch.
- Built an Excel feature matrix and competitive analysis across 11 industry peers to inform Toast feature prioritization.
- Evaluated AI ranking logic across ChatGPT, Gemini, Perplexity, and Claude to develop an AI discovery optimization playbook.

Georgetown University School of Foreign Service

Web Developer Intern

Washington, DC

Mar. 2025 – Dec. 2025

- Optimized site performance by migrating 95+ pages to a new WordPress site to reduce load time by 30% for 17M users.
- Standardized HTML/CSS layouts for 50+ pages and added alt text to 500 images to improve accessibility compliance.

EIN Presswire

Data Analyst Intern

Washington, DC

Jan. 2025 – May 2025

- Analyzed multi-year sales data across 50K+ customers, using SQL and Tableau to identify 5 high-value purchasing trends.
- Designed a \$3.9M ad reallocation plan across 4 search engines by analyzing churn metrics to guide customer pricing strategy.

LEADERSHIP EXPERIENCE

Product Space

Senior Product Analyst

Washington, DC

Aug. 2024 – Present

- Designed reusable slide deck and Figma templates to standardize client-facing deliverables across 30 analyst workflows.
- Led 45+ analyst interviews and standardized evaluation criteria to select 15 candidates for product strategy projects.
- Reviewed and revised 3 client project decks to improve research synthesis, product recommendations, and presentation clarity.

Hoyalytics

Chief Consulting Officer, previous Director of Training

Washington, DC

Aug. 2024 – Present

- Directed 13 project managers to deliver analytics-driven insights and tools for 11 clients, including WMATA and Control Risks.
- Taught 4 semester-long training modules to 300+ student analysts, covering Python, Tableau, SQL, R, and Excel.
- Designed and conducted a 2-stage (behavioral and technical) interview to evaluate 250 applicants for the consulting division.

Georgetown Asian American Student Association

Professional Development Committee Director, previous Treasurer

Washington, DC

Oct. 2024 – Present

- Facilitated a team of 4 student representatives to host monthly career development events, leading outreach to 1K+ alumni.
- Oversaw a \$20K+ budget across 6 committees for Georgetown's largest student-run organization of 400 members.
