EDUCATION

Georgetown University

Bachelor of Science in Science, Technology & International Affairs
Minor in Computer Science

- GPA: 3.9/4.0 | First Honors

Washington, DC

Aug. 2024 – May 2028

PROFESSIONAL EXPERIENCE

Massive Data Institute

Technology Policy Research Assistant

- Conducted data compliance assessments of K-12 AI tools in a \$20M grant initiative to distribute funding across 143 proposals.
- Designed a 10+ factor risk and data architecture model to enable ethical release of tutoring data for 6 AI training competitions.

Washington, DC

Apr. 2026 – Present

GovSkills

Product Consultant

- Created product specs for personalized job feeds, eligibility labels, and application timeline transparency for 3,000+ customers.
- Analyzed 73 survey responses and conducted 11 user interviews to identify barriers and preferences in government recruiting.

Washington, DC

Jan. 2026 – May 2026

Garde-Robe

Product Management Intern

- Spearheaded a growth strategy to gate premium features behind invites, increasing app virality K-factor from 0.0 to 0.15.
- Improved onboarding UI/UX with engineers and designers by removing forced contact permissions and adding in-app tutorials.
- Directed campus-ambassador programs across 7 universities to increase signups by 60% across launch campuses.

Washington, DC

Aug. 2025 – Mar. 2026

Toast, Inc.

Product Consultant

- Identified ordering friction by analyzing 50 survey responses to Figma prototype menu-filtering feature, entering pilot launch.
- Built an Excel feature matrix and competitive analysis across 11 industry peers to inform Toast B2B feature prioritization.
- Evaluated AI ranking logic across ChatGPT, Gemini, Perplexity, and Claude to develop an AI discovery optimization playbook.

Washington, DC

July 2025 – Dec. 2025

Georgetown University School of Foreign Service

Web Developer Intern

- Optimized site performance by migrating 95+ pages to a new WordPress platform to reduce load time by 30% for 17M users.
- Standardized HTML/CSS layouts for 50+ pages and added alt text to 500 images to improve accessibility compliance.

Washington, DC

Mar. 2025 – Dec. 2025

PROJECTS & ADDITIONAL EXPERIENCE

Argot

Founder & Product Developer

- Built an AI-powered slang learning engine that classifies content by generation and social context to personalize flashcards.
- Architected a content-ranking system across 5 languages and 10 levels to prioritize relevant slang and flag outdated terms.

Los Angeles, CA

June 2026 – Present

Product Space

Senior Product Analyst

- Led 45+ analyst interviews and standardized evaluation criteria to select 15 candidates for 4 product strategy projects.
- Reviewed and revised 3 client project decks to improve research synthesis, product recommendations, and presenter clarity.

Washington, DC

Aug. 2024 – Present

Hoyalitics

Chief Consulting Officer, previous Director of Training

- Directed 13 project managers to deliver analytics-driven insights and tools for 11 clients, including WMATA and Control Risks.
- Taught 4 semester-long training modules to 300+ student analysts, covering Python, Tableau, SQL, R, and Excel.

Washington, DC

Aug. 2024 – Present

NexusAI

Product Manager Lead

- Architected system prompts and API data flow to automate Slack message summarization into structured dashboard metrics.
- Designed a high-fidelity Figma dashboard; 2nd place (\$500) at NYU's 24-hour intercollegiate product competition.

Washington, DC

Apr. 2025 – Apr. 2025
